08/19/2025

City of South Haven  
539 Phoenix  
South Haven MI 49090

As a result of the bathing beach water quality sampling program done through the Van Buren County Environmental Health Division, bathing beaches are monitored for levels of bacteria. Results of samples taken on 08/18/2025 from the bathing beach area at South Haven South Beach located at 60 Water St revealed the surface water quality at the beach area met Michigan's Water Quality Standards for total and/or partial body contact for recreational purposes. The specific test results are:

|                           |             |
|---------------------------|-------------|
| South end of beach        | 4.1 /100ml  |
| Middle of beach           | 4.1 /100ml  |
| North end of beach        | 8.5 /100ml  |
| Daily mean for 08/18/2025 | 5.23 /100ml |

The Van Buren County Environmental Health Division will attempt to collect samples the week of 09/02/2025 weather and personnel permitting. If you have any questions concerning this correspondence please contact me at the Hartford office; phone 269-539-5503.

Thank you for your cooperation.

Sincerely,

George Friday RS/REHS  
Director-Environmental Health Division
