Decatur MI 49045

As a result of the bathing beach water quality sampling program done through the Van Buren County Environmental Health Division, bathing beaches are monitored for levels of bacteria. Results of samples taken on 06/01/2026 from the bathing beach area at Woolfe Park Beach located on Pine St revealed the surface water quality at the beach area met Michigan's Water Quality Standards for total and/or partial body contact for recreational purposes. The specific test results are:

South end of beach	2.0 /100ml
Middle of beach	10.9 /100ml
North end of beach	18.7 /100ml
Daily mean for 06/01/2026	7.42 /100ml

The Van Buren County Environmental Health Division will attempt to collect samples the week of 06/15/2026 weather and personnel permitting. If you have any questions concerning this correspondence please contact me at the Hartford office; phone 269-539-5503.

Thank you for your cooperation.

Sincerely,

George Friday RS/REHS
Director-Environmental Health Division
